Researchers Laura Collins and Ben Gitis also write that their estimates are conservative, since they do not include, for example, the cost of constructing new courts, prisons, and other buildings that might be needed to process and detain millions of immigrants.”

“The Conservative Case Against Enforcing Immigration Law”, The Atlantic Monthly, 03/06/2015 citing American Action Forum Report March 2015

# Immigrants & Crime

- **FACT: Immigrants are five times LESS likely than the native-born to be in prison.**

In a 2007 study, University of California, Irvine, sociologist Rubén G. Rumbaut found that, in 2000, the 3.5 percent incarceration rate for native-born men age 18-39 was five times higher than the rate for immigrant men (0.7 percent).

Moreover, among native-born male high-school dropouts, 9.8 percent were behind bars, compared to only 1.3 percent of immigrant dropouts.

- **FACT: Undocumented immigration is NOT associated with higher crime rates.**

Although the undocumented immigrant population doubled from 1994 to 2005, the violent crime rate in the United States declined by 34.2 percent and the property crime rate fell by 26.4

- **FACT: Violent Crime has Dropped in Arizona by 20% even as the Undocumented Population Has Grown**

According to a 2008 report from the conservative Americas Majority Foundation, crime rates are lowest in states with the highest immigration growth rates, such as Arizona. From 1999 to 2006, the total crime rate declined 13.6 percent in the 19 highest-immigration states (including Arizona), compared to a 7.1 percent decline in the other 32 states.

- “You could say legitimately that had we not received the contributions that we have had in the past from undocumented immigrants . . . that would of course diminish our ability to be paying benefits for as long as we now can,” [the chief actuary told MSNBC](#). He said undocumented immigrants have contributed \$100 billion into Social Security over the last decade. Boston Globe 09/20/2014

# Immigrants & Medical Services
